

# SuccessWare 6.3.12 Release Notes

Released: February 25, 2015

## Systems No Longer Supported

---

- Systems prior to Windows 7 Service Pack 1 are no longer supported.
- Mac OS X systems prior to version 10.7.5 are no longer supported.

## Known Issues

---

- Switching between Success Tracking, Success Pricing, and Success Planning crashes SuccessWare on Macintosh Mac OS X 10.9.x. This issue will be fixed in a future release. The recommended workaround is to quit SuccessWare and relaunch while holding down the shift key until a window opens asking which SuccessWare application to open.

## Enhancements

---

- Phone dialing from the contextual popup menu on the scheduler.

## Resolved Issues

---

- Fixes erroneous order payment error messages when leaving an order form.
- Better csv import file processing.
- Fixed deletion of sync accounts when the SuccessWare calendar is no longer in Google Calendar.
- Fixed printing of item totals in the expense items report.
- Fixes erroneous error when a Google contact to be deleted no longer exists.
