

SuccessWare 7.0.1 Release Notes

Released: October 18, 2015

Systems No Longer Supported

- Systems prior to Windows 7 Service Pack 1 are no longer supported.
- Mac OS X systems prior to version 10.7.5 are no longer supported.

Known Issues

- Switching between Success Tracking, Success Pricing, and Success Planning crashes SuccessWare on some Mac OS X systems. This issue is planned to be fixed in the next release. The recommended workaround is to quit SuccessWare and relaunch while holding down the shift key until a window opens asking which SuccessWare application to open.

Enhancements

- Added shift-command(⌘)-D shortcut on Mac and shift-ctrl-D shortcut on Windows for File > Dashboard.

Resolved Issues

- Fixed an issue that caused the Google syncing process to report an erroneous error and discontinue syncing.
- Fixed an erroneous error message that could appear when shutting down SuccessWare Server.
